

# Drug Screening

Information You Trust

Reduce turnover, improve workplace safety and enhance productivity with Data Facts drug testing solutions.

Employees who use drugs have health issues, are less productive, can be violent in the workplace and cause turnover. Protect your organization from potential hidden risks with Data Facts drug testing solutions.

## Some appropriate uses for drug testing are:

- pre-employment screening
- reasonable suspicion testing
- random testing
- post accident testing

Data Facts is partnered with over 6,000 patient testing centers located throughout the U.S. Request that an applicant visit a center online (replacing the chain of custody form), and the applicant will be sent a map with the location where they will be tested. Or, if you prefer, test on-site your organization"

Data Facts offers instant, onsite oral drug tests.

Data Facts also offers a variety of multiple panel, lab based and instant drug tests as well as alcohol testing. Data Facts will help you meet your drug free workplace requirements for health and safety.

## Data Facts provides the following drug testing products:

- on and off-site urine tests
- on-site saliva (includes alcohol) tests
- hair tests

## Lab Partnerships:

eScreen - Quest Diagnostics - Laboratory Corporation - Clinical Reference Lab
